4. Detailed WWL 2024 Block 6 violence data per country and region.....	5
6.1: How many Christians have been killed for faith-related reasons (including state sanctioned executions)?.....	6
6.2: How many churches or public Christian properties (schools, hospitals, cemeteries, etc.) have been attacked, damaged, bombed, looted, destroyed, burned down, closed or confiscated for faith-related reasons?.....	8
6.3: How many Christians have been detained without trial for faith-related reasons?.....	12
6.4: How many Christians have been sentenced to jail, labor camp, sent to psychiatric hospital as punishment, or similar things for faith-related reasons?.....	15
6.5: How many Christians have been abducted for faith-related reasons (including Christians missing in a persecution context)?.....	17
6.6: How many Christians have been raped or otherwise sexually harassed for faith-related reasons?.....	19
6.7: How many cases have there been of forced marriages of Christians to non-Christians?.....	22
6.8: How many Christians have been otherwise physically or mentally abused for faith-related reasons (including beatings and death threats)? (Under mental we only include death threats.).....	24
6.9: How many houses of Christians or other property (excluding shops) have been attacked, damaged, bombed, looted, destroyed, burned down or confiscated for faith-related reasons?.....	29
6.10: How many shops or businesses of Christians have been attacked, damaged, bombed, looted, destroyed, burned down, closed or confiscated for faith-related reasons?.....	32
6.11: How many Christians have been forced to leave their homes or go into hiding in-country for faith-related reasons?	34

6.12: How many Christians have been forced to leave the country for faith-related reasons?.....38

1. Summary data of Questionnaire Block 6 questions and WWL comparisons

In the overview table below it can be seen how the destructive impact of violence against Christians has (sharply) increased in WWL 2024 as compared to WWL 2023. Please also note that - as in all WWL reporting periods - the violence data reported and included below is an absolute minimum figure. In reality, it is very likely that the numbers were higher than those listed here.

Questions Block 6 Violence	WWL 2024	WWL 2023	WWL 2022	WWL 2021	WWL 2020	WWL 2019	WWL 2018	WWL 2017
6.1 Christians killed for faith-related reasons	4,998	5,621	5,898	4,761	2,983	4,305	3,066	1,207
6.2 Churches or public Christian properties attacked	14,766	2,110	5,110	4,488	9,488	1,847	793	1,329
6.3 and 6.4 Christians detained without trial, arrested, sentenced and imprisoned	4,125	4,542	6,175	4,277	4,811	3,150	1,905	
6.5 Christians abducted	3,906	5,259	3,829	1,710	1,052			
6.6 and 6.7 Christians raped or otherwise sexually harassed, or forced to marry non-Christians	3,231	2,843						
6.8 Christians otherwise physically or mentally abused (including beatings and death threats)	42,849	29,411						

6.9 and 6.10 Houses, shops, businesses or other property of Christians attacked	27,171	6,757						
6.11 and 6.12 Christians forced to leave their homes, go into hiding in-country or leave the country	295,120	139,307						

2. Summary statements focusing on all WWL 2024 violence data

The statements below are based on the tables giving detailed violence data per country and region in Section 4 of this document. Besides the actual recorded numbers, it is important to note that several ‘symbolic numbers’ (10*, 100*, 1000*, 10,000* or 100,000*) were used. Nearly all totals have some symbolic numbers included, as the tables in Section 4 show. It follows that the numbers presented are (much) lower than in reality.

- **The total number of Christians killed for their faith decreased from 5,621 cases (WWL 2023) to 4,998 (WWL 2024).** This was only due to fewer Christians being killed for their faith in Nigeria. Elections were held in February and March 2023. The period before the elections showed a noticeable drop in the number of attacks on Christians. Unfortunately the insurgents took their violence to the old level again after the elections.
- **The total number of churches or public Christian properties attacked in differing forms of severity, increased sharply from 2,110 cases (WWL 2023) to 14,766 (WWL 2024).** Reports showed a very strong increase in the number of churches attacked compared to WWL 2023. Particularly influential in this rise were the numbers for China, India, Nigeria, Nicaragua and Ethiopia. See the WWL 2024 Trends Article for further explanation. Hidden behind the numbers of buildings attacked, is the fear and insecurity of many church communities that use those buildings. Such attacks may lead to the disintegration of church communities, even if the Christians are not forcibly displaced.
- **The total number of Christians detained for their faith increased from 3,154 cases (WWL 2023) to 3,329 (WWL 2024).**

- **The total number of Christians sentenced for their faith decreased from 1,388 cases (WWL 2023) to 796 (WWL 2024).**
- **The total number of Christians abducted for faith-related reasons decreased from 5,259 cases (WWL 2023) to 3,906 (WWL 2024).** As for killings (see above), the decrease was only due to a lower number of abductions in Nigeria, in particular in the period before the elections.
- **The number of cases of Christians raped or otherwise sexually harassed for faith-related reasons increased from 2,126 (WWL 2023) to 2,622 (WWL 2024).** Reporting was particularly difficult because of issues of trauma and cultural tabus.
- **The same applies for cases of forced marriages of Christians to non-Christians: The number decreased from 717 (WWL 2023) to 609 (WWL 2024).**
- **The number of cases of Christians who have been otherwise physically or mentally abused for faith-related reasons (including beatings and death threats) increased from 29,411 (WWL 2023) to 42,849 (WWL 2024).**
- **In WWL 2023, there were 4,547 cases of houses of Christians or other property (excluding shops) attacked. That number increased to 21,431 (WWL 2024).**
- **There were also cases of shops or businesses of Christians being attacked: The number increased from 2,210 (WWL 2023) to 5,740 (WWL 2024).**
- **Because of violence – and also pressure (especially where converts had to leave their homes and communities) – the number of Christians forced to leave their homes or go into hiding in-country for faith-related reasons was 124,310 in WWL 2023. The number increased to 278,716 in the WWL 2024 reporting period.**
- **Sometimes there was no choice for Christians but to leave their country because of persecution. The number of Christians forced to leave their country for faith-related reasons increased from 14,997 (WWL 2023) to 16,404 (WWL 2024).**

3. Introductory notes concerning detailed violence data per country and region

The WWL 2024 data presented in this document is based wherever possible on direct counting. In several cases, where it is very hard to know exact numbers and it is clear from indirect sources that there have been violent incidents occurring against Christians, numbers have been otherwise defined. See the discussion below. In such cases, the World Watch Research team has always estimated conservatively. In connection with this, please see Section 2 of the WWR document “WWL – Discussion of key themes”, published in October 2023 (available at <https://www.opendoors.org/research-reports/wwl-documentation/WWL-Discussion-of-Key-Themes-update-October-2023.pdf>).

The tables presented below do not pretend to give a complete picture. The exact details of what is happening to Christians in a country are difficult to obtain: For instance, especially in countries where there is conflict or a high level of secrecy, the media are often seriously curtailed by the regime or influenced by social actors. Please see the individual WWL 2024 Full Country Dossiers for more details. These are made publicly available in mid-January 2024 at <https://www.opendoors.org/en-US/research-reports/country-dossiers/> and <https://opendoorsanalytical.org/country-dossiers/> (password: freedom).

The data on violence presented is limited to all countries scoring 41 or more points in the WWL 2024 reporting period. There may be cases of violence in countries scoring 40 points or less, but these are not included here. For each question in Block 6, country data is shown.

For security reasons: There are 8 countries where the data on violence is presented but the names of those countries are not individually revealed. These countries are Afghanistan, Bhutan, Malaysia, Maldives, North Korea, Oman, Somalia and Yemen. The data for these 8 countries is indicated with “NN”.

In the tables below, Column F indicates with the word ‘TRUE’ where a symbolic round number has been used; this is because the number of cases has been impossible to count exactly. Possible symbolic round numbers are 10, 100, 1000, 10,000 or 100,000. A symbolic number of 10 could in reality be (much) more than 10, but the real number is uncertain; the same applies for the other symbolic numbers.

A further disclaimer: Even where it was possible to count exact numbers, it has to be understood that what has been counted is very often the absolute minimum. Much violence against Christians goes unnoticed and/or unreported.

4. Detailed WWL 2024 Block 6 violence data per country and region

Please note: In the tables below, the coloring (red, orange and yellow) corresponds to the coloring used in the WWL 2024 Table of scores and ranks denoting ‘Extreme’, ‘Very high’ and ‘High levels’ of overall persecution.

6.1	How many Christians have been killed for faith-related reasons (including state sanctioned executions)? TOTAL: 4,998
